**REMARKS**

Applicants, by the amendments presented above, have made a concerted effort to present claims which more clearly define over the prior art of record, and thus to place this case in condition for allowance.

5

***Specification and Drawings***

The specification and drawings were objected to for the reasons specified on pages 2 and 3 of the Office Action. Applicants have amended pages 5, 6, and 10 to consistently refer to alpha numeral 3 as a magnetisable ring. Applicants have amended the specification so that it consistently refers to "apertures 7" and "detents 6". In addition, Applicants have amended Figure 2 to clearly identify "detents 6". Applicants submit that these amendments do not introduce any new matter and is fully supported in the specification as originally filed.

10

The Examiner objected to Figs. 3 and 12 because both the plastic disc and cap were shown cross-hatched as steel material, rather than plastic material. Applicants have included corrected drawings on replacement pages.

15

Entry is requested. Withdrawal of the objections is requested.

***Claims***

The Examiner indicated that claims 3 and 5 would be allowable if rewritten in independent form, including all of the limitations of the base claim and any intervening claims. Applicants have amended the subject matter of claim 3 into claim 1. Therefore, Applicant submits that amended claim 1 is allowable. Claim 5 has been made dependent upon claim 1.

20

## BEST AVAILABLE COPY

Therefore, Applicants submit that the claims are allowable.

A Petition for a Two-Month extension of time to extend the date for response up to and including December 4, 2006 is enclosed.

In view of the above Amendments and Remarks, Applicants respectfully submit that the claims of the application are allowable over the rejections of the Examiner. Should the Examiner have any questions regarding this Amendment, the Examiner is invited to contact one of the undersigned attorneys at (312) 704-1890.

Respectfully submitted,

Dated: Nov. 29, 2006
